

Displacement Resilience in Rwanda

Suitability Analysis Based on Preliminary Displacement Natural Disaster Resilience Indicators

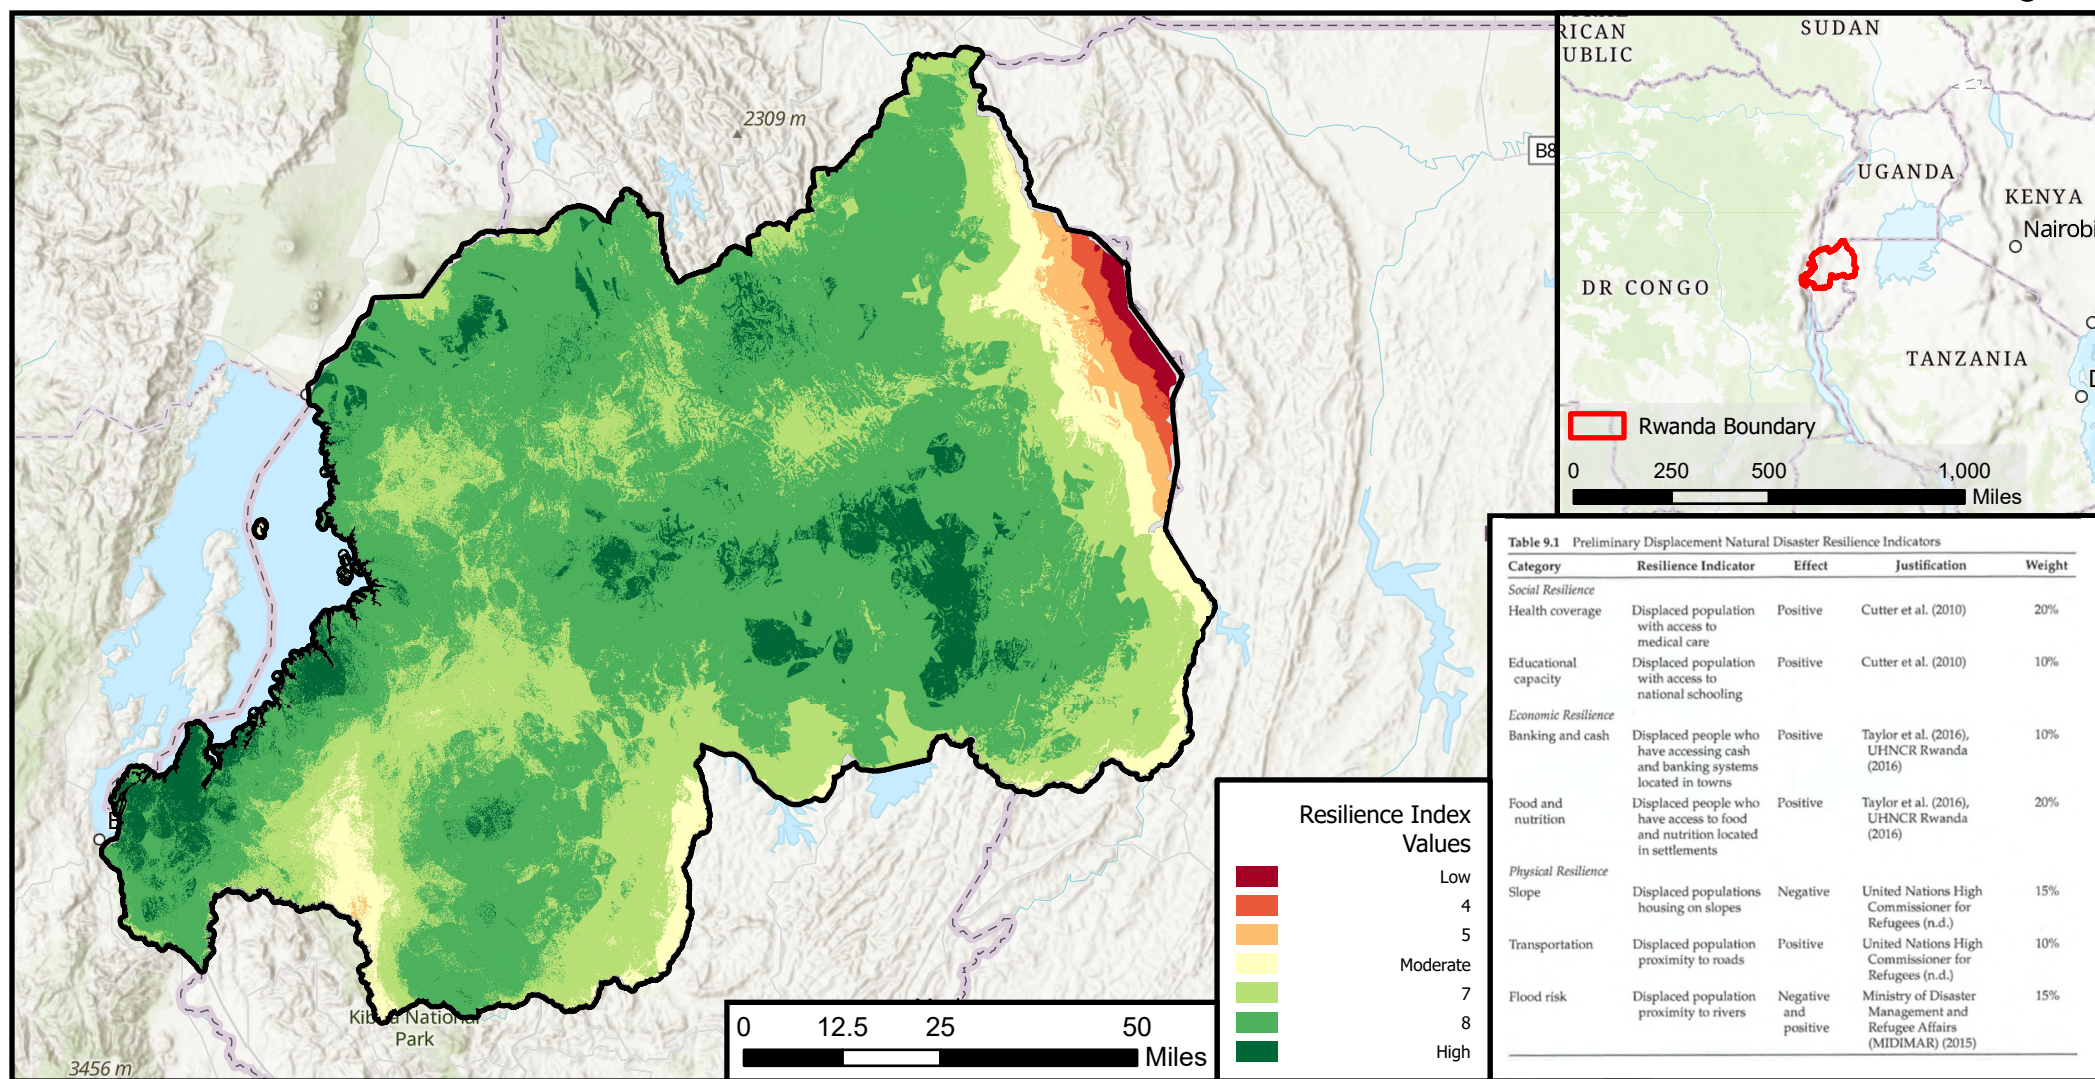

Table 9.1 Preliminary Displacement Natural Disaster Resilience Indicators

Category	Resilience Indicator	Effect	Justification	Weight
Social Resilience				
Health coverage	Displaced population with access to medical care	Positive	Cutter et al. (2010)	20%
Educational capacity	Displaced population with access to national schooling	Positive	Cutter et al. (2010)	10%
Economic Resilience				
Banking and cash	Displaced people who have accessing cash and banking systems located in towns	Positive	Taylor et al. (2016), UHNCR Rwanda (2016)	10%
Food and nutrition	Displaced people who have access to food and nutrition located in settlements	Positive	Taylor et al. (2016), UHNCR Rwanda (2016)	20%
Physical Resilience				
Slope	Displaced populations housing on slopes	Negative	United Nations High Commissioner for Refugees (n.d.)	15%
Transportation	Displaced population proximity to roads	Positive	United Nations High Commissioner for Refugees (n.d.)	10%
Flood risk	Displaced population proximity to rivers	Negative and positive	Ministry of Disaster Management and Refugee Affairs (MIDIMAR) (2015)	15%
